

2006 Mathematics

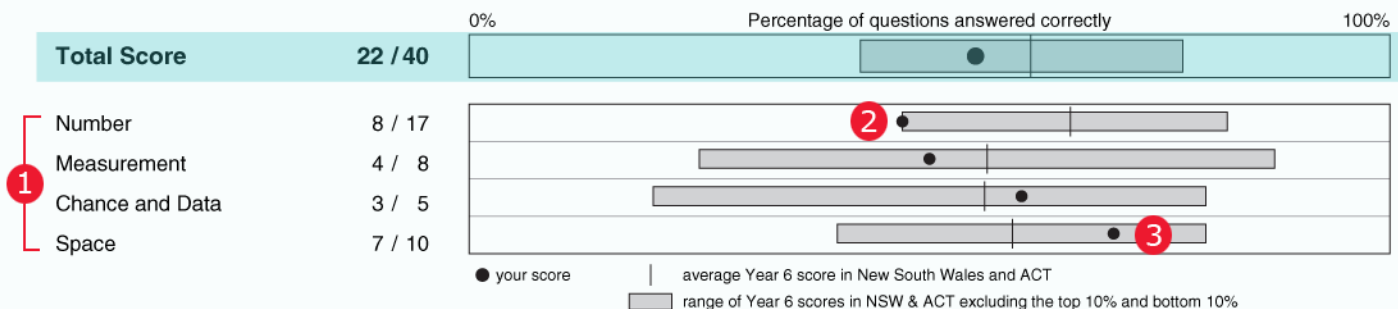

International Competitions and Assessments for Schools

Dear Jody

Thank you for participating in the 2006 International Competitions and Assessments for Schools - Mathematics. You scored **22 out of 40**.

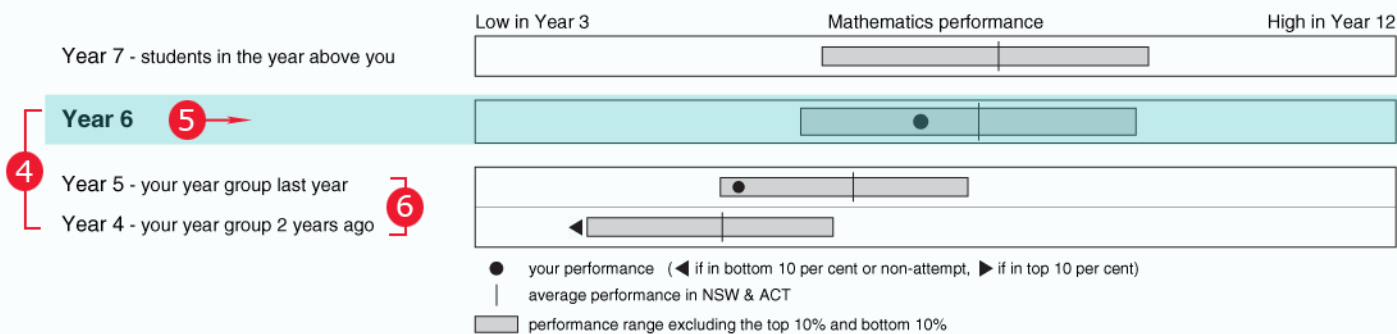

2006 Mathematics Performance

The graph below shows your **2006 Mathematics score** and your performance in each of the different areas assessed.

Comparative Mathematics Performance

Students in New South Wales and ACT from Year 3 to Year 12 participated in the International Competitions and Assessments for Schools - Mathematics. The graph below compares your performance to year levels above and below (where available).

- This section compares Jody's performance in each of the skill areas assessed with the performance of all students who participated in the state/region. The graphs indicate which areas may be strengths and weaknesses for Jody.
- On this assessment Jody performed significantly below average in the skill area of Number. This result may indicate an area of weakness for Jody.
- On this assessment Jody performed well above average in the skill area of Space. This result may indicate an area of strength for Jody.
- This section tracks Jody's performances on the assessment in previous years. This allows for the measurement of Jody's progress over time, relative to the other students in her year level across the state/region.
- This graph compares Jody's performance on this year's assessment to the performance of the other Year 6 students in the state/region.
- This section compares Jody's performance on the assessment in previous years. Jody has shown significant progression over the past three years. When she was in Year 4 she was in the bottom 10% of participating students. In Year 5 she had improved moderately but was still well below average. In Year 6 however she has shown significant improvement and is now only slightly below the average.
